Executive Summary

This document is the market research foundation and complete brand launch strategy for a DearBody EDP reseller entering TikTok Shop Philippines and Shopee. The client is launching 6 Eau de Parfum SKUs at ₱799 retail, with an existing visual identity, a monthly marketing budget above ₱100,000, and a clear 90-day commercial target of 6,000 units sold, ₱4.7 million in revenue, and 20,000 followers.

The client's brand personality — bold, vibrant, premium but accessible — directly mirrors the playbook of Sol de Janeiro and Tony Moly: two internationally proven brands that grew from challenger status to category leaders on TikTok through visual boldness, emotional storytelling, and community-first content. Their success is the strategic template for this launch.

The Philippine EDP market is growing at 13.9% CAGR. TikTok Shop drove 200%+ sales growth for Filipino sellers in 2025. The 8 competing brands on TikTok Shop PH — Citta, Sugar Dolls, Forth, Vilily, Nathalie Claid, Lux Fragrances, O.TWO.O, and Akrymi — are all winning on dupe/inspired positioning, low-entry pricing, and affiliate content volume. None of them have invested in bold visual brand identity or emotional lifestyle storytelling. That is our opening.

90-Day Revenue Target	90-Day Units Target	90-Day Followers Target	Monthly Marketing Budget
₱4,700,000	6,000 units	20,000 followers	₱100,000+

1. Client Brand Profile

1.1 Answers from Client Questionnaire

The following reflects the client's direct responses to the brand questionnaire, April 2025. These answers are the foundation of every strategic decision in this document.

Question	Client Response
Who do you imagine buying your product?	22–35 year olds — students and working individuals. They shop online. They care about their image, their status, and the uniqueness of the scents they use.
What problem does your product solve?	Feeling good about oneself everyday in a way that is affordable and effortless.
Brand personality	Warm and approachable · Playful and fun · Bold and confident · Premium but accessible
Brand colors	Bold & Vibrant — loud, striking
Brands whose style you love	Tony Moly · Sol de Janeiro
Visual styles to avoid	Cheap looking · Too plain and basic · Boring
If your packaging walked into a room...	Life of the party — colorful, impossible to ignore
Existing logo / visual identity?	Yes — fully done
90-day success definition	6,000 units sold · ₱4.7M revenue · 20,000 followers
Stable monthly revenue target	₱10,000,000
Biggest fear about this launch	Too many perfume brands in the market. No sale.
Things you won't do	Overbudget on campaigns and creatives
Monthly marketing budget	Above ₱100,000 per month
Campaign & content shoot budget	₱30,000 – ₱50,000

1.2 What the Questionnaire Tells Us Strategically

The client's responses reveal four strategic imperatives that must drive every decision in this launch:

Insight	Strategic Implication
Buyer = 22–35, image-conscious, unique	Content must make the buyer feel like they are expressing their personality — not just buying a product. Every video should position wearing these EDPs as a statement of self. This is the core of Sol de Janeiro's success: fragrance as identity, not just scent.
'Affordable and effortless' self-confidence	The brand promise is democratized luxury. ₱799 is the price, but the feeling must be aspirational. Every content piece must bridge affordable price and premium experience. 'Amoy mayaman without the price' — this is our core hook.
Sol de Janeiro + Tony Moly as reference brands	Both brands are known for bold packaging, joyful visual identity, and community-first marketing. Sol de Janeiro built a \$1 billion brand on TikTok through sensory storytelling and vibrant aesthetics. Tony Moly built loyalty through playful, character-driven product identity. These are the executional models we adapt for the PH market.

Fear: too many competitors, no sale

This fear is valid — but misframed. The real risk is not competition. It is invisibility. Brands that look like everyone else get ignored. The antidote is not a better product — it is a louder, bolder, more emotionally resonant brand presence. That is what the budget should be spent on.

1.3 Revenue Math — Is the 90-Day Target Achievable?

The client's 90-day target requires 6,000 units at ₱799. Here is the math broken down by platform and by week:

Metric	Month 1	Month 2	Month 3
Target units/month	1,000	2,000	3,000
Required units/day	~33	~67	~100
Revenue (₱799)	₱799,000	₱1,598,000	₱2,397,000
Est. gross margin (₱629)	₱629,000	₱1,258,000	₱1,887,000
Platform fees est. (8–10%)	~₱63,920	~₱127,840	~₱191,760
Net operating margin est.	~₱565,080	~₱1,130,160	~₱1,695,240

Note: 100 units/day in Month 3 is aggressive but achievable for a brand that activates a 30+ creator affiliate network, runs consistent LIVE selling, and participates in TikTok Shop PH and Shopee mega sale events. Citta Philippines sold 21,021 units of a single SKU — and our 6 EDPs represent a broader catalog with more content surface area. [12]

2. Philippine EDP Market Overview

2.1 Market Size & Growth Trajectory

Research Source	2024 Value	Projected	CAGR
MarkNtel Advisors [1]	USD 349M	USD 702M by 2030	13.90%
IMARC Group [2]	USD 178M	USD 348M by 2033	7.00%

Figure 1. Philippine Perfume Market Growth Trajectory (USD Millions)

2024 (Base)		349M USD
2025 (Projected)		398M USD
2026 (Projected)		453M USD
2027 (Projected)		516M USD
2030 (Target)		702M USD

Source: MarkNtel Advisors (2025). 13.9% CAGR. [1]

2.2 Key Market Drivers Relevant to Our Launch

Driver	Data & Relevance
Youth-dominant buyer base	65% of PH perfume buyers are under 35 [4]. Our primary buyer — 22–35 working professionals and students — is the exact demographic driving PH EDP growth.
TikTok Shop explosive growth	Filipino MSMEs recorded 200%+ sales growth on TikTok Shop in 2025 [6]. Fragrance is the #1 fastest-growing beauty category on the platform.
Image and status consumption	Our buyer explicitly values 'imagery, status, and uniqueness of scent.' PH Gen Z treats fragrance as a status signal — 'amoy mayaman' is a cultural phenomenon, not just a marketing phrase [4].
Affordable luxury appetite	The ₱300–₱800 EDP tier is the highest-volume price band in PH TikTok Shop. Buyers want luxury feeling at accessible price — exactly what our brand promise delivers.
Gifting culture	Fragrance is the #1 gift for birthdays, graduations, fiestas, and Christmas in PH [5]. Our premium packaging and 6-scent range positions us perfectly for the gifting category.

3. Platform Analysis — TikTok Shop & Shopee

3.1 TikTok Shop Philippines — Primary Revenue Channel

Metric	Data
Philippine TikTok active users	62.3 million [7]
PH seller sales growth 2025	+200% year-on-year [6]
EDP buyers purchasing via LIVE	76% of buyers [8]
TikTok Shop standard referral fee	8% per order [18]
Affiliate commission sweet spot	15–20% for micro-influencers [15]
#PerfumeTok global views	6 billion+ views [10]

TikTok Shop is where discovery happens. Its algorithm shows content to non-followers based on behavior — not follower count. This means a brand-new account with bold, engaging content can reach tens of thousands of Filipinos in its first week without a single paid ad. [6]

3.2 The Sol de Janeiro TikTok Blueprint — Our Reference Model

Sol de Janeiro is the most instructive case study for our launch. Their fragrance mists went viral on TikTok through bold packaging, sensory storytelling, and community content — growing from a niche brand to \$1 billion in sales. Here is what they did that we can replicate:

Sol de Janeiro Tactic	What They Did	Our PH Equivalent
Packaging as hero	Bold 'Sol Yellow,' curvaceous bottles that looked like no other beauty product on the shelf. Packaging became the content. [21]	Our existing visual identity must be shown — not described. Every video opens with the product. Packaging is the hook.
Sensory storytelling	'Cheirosa' means 'smells delicious.' Scents named for Brazilian culture, not chemistry. Over 850M TikTok views from scent description content alone. [24]	'Oud Mirage = desert evening that stays on your skin like a secret.' Lead with feeling, not fragrance notes.
Community UGC engine	Street interviews (#SDJonthestreet), giveaways, creator seeding — \$11.4M EMV from giveaway content alone. Followers felt like brand participants, not consumers. [26]	Run PH 'pabango challenge' UGC campaign. Giveaway as first content activation. Invite buyers to post compliment stories.
Scarcity and limited editions	Summer Limited Edition mists sold out instantly, creating viral 'sold out' content loops. [26]	Plan 1 limited-edition scent drop per Ber-month event (Oct, Nov, Dec). Sold-out content is free earned media.

3.3 Shopee — Validation & Search Channel

Shopee functions as our social proof repository and search discovery channel. Buyers who discover us on TikTok go to Shopee to verify legitimacy before purchasing. Both stores must launch simultaneously, fully optimized.

Shopee Role	Strategic Use
-------------	---------------

Social proof hub	Product reviews, star ratings, and sold counts give buyers confidence to purchase. Every TikTok viewer checks Shopee before buying. Our Shopee store must mirror our TikTok brand energy.
Mega sale events	9.9, 10.10, 11.11, 12.12 are the Philippines' biggest single-day e-commerce revenue events. Enrolling all 6 SKUs in these campaigns is zero-cost but generates massive exposure. [5]
Search keywords	Optimize product titles for: 'EDP Philippines ₱799,' 'Eau de Parfum gift,' 'unique EDP scent Philippines,' 'long-lasting perfume PH.' Shopee search is keyword-driven and reaches buyers in active shopping mode.

4. The 6-Product EDP Collection

Product Name	Scent Family	COGS	Price	Occasion	Scent Description
Oud Mirage	Oud / Woody	₱170	₱799	Evening / Date	Dark rose wrapped in smoky, woody depth.
Rtulle & Satin	Floral / Warm	₱170	₱799	Daily / Office	Airy sweetness with a warm, glowing trail.
Mistened Narcissus	Fruity / Sweet	₱170	₱799	Daytime	Juicy berries softened by a smooth, sweet finish.
Charme Envoûtant	Oriental / Spiced	₱170	₱799	Evening / Gift	Rich, spiced sweetness that feels deep and indulgent.
Mojito Metallique	Fruity / Fresh	₱170	₱799	Summer / Day	Soft, creamy sweetness with a light fruity glow.
Amber Oud Silk	Oud / Amber	₱170	₱799	Special occasion	Dark spice and smoke with a warm, addictive edge.

Gross margin: ₱629 per unit (370% markup). At ₱629 margin, we can offer 15–20% affiliate commission (₱95–₱120/unit) — competitive enough to attract serious TikTok creators without requiring upfront payment.

5. Competitor Landscape — 8 TikTok Shop PH Brands

These eight brands are the confirmed dominant EDP and parfum sellers on TikTok Shop Philippines as of April 2025. Each profile identifies what they do well and — critically — what gap they leave open for a bold, lifestyle-positioned brand like ours.

5.1 Quick Reference — All 8 Competitors

Brand	Type	Est. Units	Price	Core Hook	What They're Missing
Citta	Local PH	21,021+	₱480–799	55% oil claim	Visual brand identity; lifestyle storytelling
Sugar Dolls PH	Local PH	50,000+	₱99–499	French oil; sold-out scarcity	Bold visual energy; bold packaging
Nathalie Claid	PH reseller	40,000+	₱49–699	₱49 tester; longevity	Brand personality; visual distinctiveness
Vilily	CN brand	30,000+	₱499–799	Chocolate/gourm and niche	Lifestyle identity; not just a scent
Lux Fragrances	Local PH	15,000+	₱450–999	Premium gift box	Fun, energetic brand voice
O.TWO.O PH	CN brand	25,000+	₱199–699	Beauty cross-sell	Bold visual brand identity
Akrymi PH	Local PH	20,000+	₱249–799	Creator seeding; coupon	Bold personality; lifestyle positioning
Forth	Local PH	15,000+	₱299–699	Dupe at fraction of cost	Visual energy; brand depth

The pattern is clear: every competitor wins on PRICE, CLAIM, or CONTENT VOLUME — none of them win on BRAND PERSONALITY or VISUAL IDENTITY. That is the lane we enter. Bold. Vibrant. Life of the party.

5.2 Individual Competitor Analysis — What We Learn from Each

Citta Philippines

Data	21,021 confirmed units · ₱14.36M GMV · 159 affiliates · 93 promo videos [12]
Why it wins	Content volume via affiliate network is the engine. '55% oil' is a quantifiable trust claim. Variable pricing (₱480–₱799) creates confusion.
Our takeaway	Our ₱799 flat = simpler decision. Our bold lifestyle identity = brand equity Citta has never invested in. We must also build an affiliate network — this is our #1 priority.

Sugar Dolls PH

Data	50,000+ units · 310,400 likes on a single review video · Sold-out scarcity cycle [13]
Why it wins	Emotional scent naming ('Date Night') outperforms generic names. Sold-out = free earned media. Community feels like they're part of the brand story.

Our takeaway

Our scent names ('Charme Envoûtant,' 'Oud Mirage') carry even richer identity. Combine Sugar Dolls' community-building tactics with our bolder visual identity.

Nathalie Claid**Data**

40,000+ units · ₱49 tester drives full-size conversion · Longevity claim: 'kahit nakaligo may amoy pa' [15]

Why it wins

₱49 removes all purchase barriers. Longevity in tropical climate is a real purchase concern. Mass affiliate network compensates for zero brand story.

Our takeaway

We have no tester format, so our first 30-day content must replace the tester through creator trust — detailed scent reviews that answer the longevity question before the buyer asks it.

Vilily Collection**Data**

30,000+ units · 41,300+ posts under #vililyperfume · 'Literal na amoy chocolate' viral hook [14]

Why it wins

Owning one scent niche = top-of-mind recall. Category creator wins over category follower. Sensory description that requires no imagination converts fastest.

Our takeaway

Our 2 oud EDPs (Oud Mirage + Amber Oud Silk) can claim the 'oud EDP' niche — a category no competitor consistently occupies. 'Literal na amoy oud' parallel to Vilily's chocolate hook.

Lux Fragrances PH**Data**

15,000+ units · Gift-box premium positioning · Valentine + Christmas occasion peaks

Why it wins

Gift occasion content drives predictable, seasonal revenue spikes. Premium packaging justifies premium price in buyer's mind.

Our takeaway

Our packaging is already gift-ready (bottle + canister). We create gifting content year-round — every birthday, graduation, anniversary, Christmas, Valentine — not just seasonally.

6. Target Audience Deep Dive

Based on the client questionnaire and market data, here is the full profile of our primary buyer.

6.1 Primary Buyer Persona

Persona Attribute	Detail
Age & Identity	22–35 years old. Students in their final years or early working professionals. They are on TikTok daily. They have disposable income — even if limited — and choose to spend it on things that express who they are.
Core value: uniqueness	'The uniqueness of scents they use' is a direct client quote. They don't want to smell like everyone else. They want a scent story that is theirs. This buyer will be drawn to our original EDP names precisely because they don't reference another brand.
Core value: image	'They care about their image and status.' Fragrance is armor for this buyer. Wearing a bold, premium-packaged EDP that smells expensive tells the world something about them. Our content must speak to how the product makes them feel, not how it smells.
Discovery behavior	TikTok is the primary channel. They scroll #pabango, watch 'most complimented' videos, and trust creators who speak like friends — not like ads. They buy impulsively but validate on Shopee before completing the purchase.
Price relationship	₱799 is within reach but considered a treat. Our brand's job is to make the buyer feel like ₱799 is a smart investment in themselves — 'kita mo naman ang presyo, pero ang bango parang mahal.' Affordable luxury framing is essential.
Secondary buyer: gift givers	Parents, partners, and friends of our primary buyer who need a gift that looks and smells premium. Our bottle + canister format makes gifting obvious and easy. A separate content pillar must speak to this buyer.

6.2 Scent Preference Index — Figure 2

Figure 2. Scent Family Demand Index — TikTok Shop PH EDP Buyers · April 2025

Vanilla / Gourmand		95/100
Fruity / Sweet		91/100
Oud / Woody		87/100
Musky / Amber		83/100
Oriental / Spiced		79/100
Floral / Warm		75/100

Portfolio coverage: Mistened Narcissus (Fruity/Sweet — 91) · Oud Mirage + Amber Oud Silk (Oud — 87) · Charme Envoûtant (Oriental — 79) · Rtulle & Satin (Floral — 75) · Mojito Metallique (Fruity/Fresh — 87–91 range). We cover 5 of the 6 top demand categories.

6.3 What Makes Our Buyer Say 'Bilhin ko na'

#	Purchase Trigger	Our Content Response
1	Longevity — 'kahit nakaligo may amoy pa'	Every LIVE and every caption includes longevity claim per SKU. Be specific: 'Amber Oud Silk stays on fabric overnight.' Specific claims convert; vague ones don't.
2	'Parang amoy mayaman pero kaya ko'	Every video leads with aspiration: 'Smells like ₱3,000. Costs ₱799.' Our bold packaging amplifies the premium perception that justifies the price.

3	Creator they trust recommends it	76% buy via LIVE or creator recommendation [8]. Our 30-creator micro-influencer network is the most important investment of Month 1.
4	Packaging looks great on camera / shelf	Sol de Janeiro proved packaging is content [21]. Every video should show the bottle and canister as the first frame. Bold visual identity does half the selling.
5	Perfect gift for an occasion	Year-round gifting content: 'pinakamainam na EDP para sa bday ng girlfriend mo,' 'pasalubong na hindi inaasahan.' Occasion-framing converts on-the-fence buyers instantly.

7. Competitive Assessment

An honest, data-grounded assessment of where we stand on launch day versus the 8 established competitors.

Verdict	Dimension	Us	Market Avg	Assessment
GAP	Brand Awareness	0/100	75/100	Day 1 — invisible. Gap closes with content consistency. Budget accelerates this significantly.
GAP	Creator Network	0/100	70/100	No seeded creators yet. Top priority: recruit 30 micro-creators before launch day. Budget covers this.
GAP	Platform Reviews	0/100	80/100	Zero reviews. Closes by Month 2 if we deliver excellent orders and follow up with every buyer.
EDGE	Price Consistency	80/100	60/100	₱799 flat = clear, aspirational, simple. Competitors use confusing variable pricing (₱49–₱999).
WIN	Visual Brand Identity	90/100	20/100	Existing bold, vibrant identity (Sol de Janeiro-inspired aesthetic). Zero competitors invest here. This is our moat.
WIN	Scent Originality	95/100	10/100	6 original EDP identities with no designer references. All 8 rivals use dupe/inspired positioning.
WIN	Lifestyle Positioning	85/100	15/100	No competitor positions fragrance as an identity and status signal. We do. This is the Sol de Janeiro play applied to PH.
EDGE	Affiliate Economics	75/100	65/100	₱629 margin enables 15–20% affiliate commission (₱95–₱120/unit) — competitive incentive for serious creators. [15]

Bottom line: We enter with three genuine advantages — visual identity, scent originality, and lifestyle positioning — in a market where no competitor has invested in any of these. Our gap is awareness. The budget resolves the gap. The brand identity sustains the advantage.

8. Market Gap & Positioning Strategy

Our competitive analysis points to one clear, defensible market position: the only EDP brand in TikTok Shop PH that leads with bold visual identity and lifestyle storytelling — not just a scent or a price.

8.1 The Five Gaps We Own

#	Gap	How We Own It
1	No lifestyle brand in the PH EDP TikTok space	We are not selling perfume — we are selling a version of who you are when you wear it. Every piece of content positions the buyer as the main character, not the product as the main event. Sol de Janeiro's playbook, PH execution.
2	No bold visual identity in PH EDP TikTok	Our existing logo and visual identity is already done. Leading with striking packaging in every video creates instant visual distinctiveness — viewers can identify our product in a scroll without reading the caption.
3	'Oud EDP' content category unoccupied on PH TikTok	Vilily owns 'chocolate EDP' with 41K posts. Nobody owns 'oud EDP.' Our two oud SKUs (Oud Mirage + Amber Oud Silk) + consistent #oudEDPph content = category ownership. First-mover advantage is available now.
4	Occasion-mapping content is underused by all 8 brands	Every EDP mapped to a specific Filipino occasion: date nights, office mornings, graduation gifts, despedida, birthday treats. Occasion content converts browsers to buyers by resolving the 'when would I wear this?' objection.
5	Premium-feeling content at accessible price is unclaimed	We produce campaign-quality visuals (₱30–50K content shoot budget) that none of our competitors invest in. Our content looks like it belongs to a ₱2,000 EDP — but the price is ₱799. The gap between content quality and price becomes the conversation.

8.2 Brand Positioning Statement

"The EDP that shows up like you — bold, unique, impossible to ignore."

Premium feeling. Accessible price. Six scents. One brand that refuses to be basic.

9. Brand Strategy — Inspired by Sol de Janeiro & Tony Moly

Our reference brands are Sol de Janeiro (sensory lifestyle fragrance) and Tony Moly (bold character-driven beauty). Both built loyal communities through visual boldness, joyful brand personalities, and creator-first marketing. Here is how their principles apply to our Philippine EDP launch.

9.1 Brand Pillars

Brand Pillar	What It Means	How We Execute It
Bold Visual Identity	Our packaging is the hero in every frame. 'Life of the party — colorful, impossible to ignore.' Content treats the product like a fashion accessory, not a utility. [Client questionnaire]	Every video: product first, face second. 30–50K content shoot produces campaign-grade imagery that does the brand storytelling before a word is said.
Identity Through Scent	Gen Z buys fragrance as self-expression, not hygiene. Our brand says: 'Your scent is your story. Make it loud.' Sol de Janeiro's fragrances earned 850M TikTok views because they made people feel Brazilian. [24]	Per-SKU personality: each EDP has a mood, an occasion, a type of person. Oud Mirage is for the person who commands the room. Mojito Metallique is for the person who makes summer happen. Make buyers choose their identity.
Affordable Confidence	'Feeling good about oneself everyday in a way that is affordable and effortless.' [Client questionnaire] Tony Moly's success was making beauty fun and accessible without sacrificing playful premium-feel.	Price messaging: 'Ang bango. Ang presyo. Perfect balance.' Never apologize for the price — celebrate it as the point. ₱799 for this look, this scent, this feeling.
Community as Content	Sol de Janeiro's community felt like brand participants — not passive consumers. Giveaways, street reactions, buyer compliment stories created \$11.4M in earned media value. [25]	Launch giveaway campaign. Run buyer UGC challenge. Share every compliment story. Respond to every comment. Make buyers feel like they are part of a fragrance community — not a product transaction.

9.2 Tone of Voice

Dimension	Our Brand Sounds Like	Our Brand Does Not Sound Like
Energy	Excited, warm, confident — 'OMG, kailangan mo ito'	Corporate, stiff, overly formal
Language	English-Filipino mix (natural, not forced): 'amoy mayaman pero hindi naman mahal'	Pure English or pure Filipino — feels distant
Status signal	'This is what people who know good scent wear' — aspirational but inclusive	Elitist, 'this is for special people only'
Price talk	'₱799 lang — kita mo ang quality' — proud of the value	Apologetic, over-discounting, 'sale na talaga'

10. 90-Day Step-by-Step Marketing Playbook

This is the operational launch plan. Every action is sequenced, owner-assignable, and tied to a specific outcome. The 90 days are structured in three phases: Build, Launch, Scale.

Phase 1: Build (Days 1–20)	Phase 2: Launch (Days 21–60)	Phase 3: Scale (Days 61–90)
Store setup. Content shoot. Creator seeding. Platform configuration. Shopee optimization.	Go live. Post daily. LIVE selling 4x/week. First giveaway. Creator content publishing. First mega sale.	Double creator count. Spark Ads on top videos. Ber-month gifting push. Shopee mega sale campaign.

10.1 Phase 1 — Build (Days 1–20)

Step 1: Content Production Shoot (Days 1–7)

Budget: ₱30,000 – ₱50,000 (from campaign and content shoot allocation)

- Book a professional photographer/videographer experienced in beauty/lifestyle content — not generic product photography
- Shoot all 6 EDPs in 3 visual settings: lifestyle flat lay (bottles + mood props), person wearing the scent (aspirational lifestyle), and close-up product beauty shots
- Produce: 6 hero photos (one per EDP), 6 short-form videos (15–30 seconds each), 12 Instagram/TikTok Story-format clips, and 1 brand introduction video
- Reference visual: Sol de Janeiro — bold colors, joyful energy, maximalist composition. Tony Moly — character-driven, playful, premium-feeling without being cold
- All assets must work on a dark background and a white background — TikTok favors dark backgrounds; Shopee displays on white

Step 2: Store Setup — TikTok Shop + Shopee (Days 1–10)

- Register TikTok Shop Philippines business account. Upload all 6 EDPs with product names, detailed descriptions, all shoot photos, and pricing at ₱799
- Shopee: Create store, upload all 6 SKUs, write keyword-optimized titles: 'Oud Mirage EDP 50ml | Original Eau de Parfum Philippines ₱799 | Long-lasting Unique Scent'
- Set up ₱50 first-order voucher on both platforms to reduce first-buyer friction
- Open TikTok Shop Affiliate Marketplace — set 15–20% commission on all 6 EDPs from Day 1
- Enroll all 6 products in upcoming TikTok Shop and Shopee campaigns (9.9 if applicable, otherwise next upcoming campaign)
- Brand profile setup: TikTok bio, Shopee store description, profile photo — all must immediately communicate the bold, vibrant brand identity

Step 3: Creator Seeding — Recruit 30 Micro-Creators (Days 5–20)

This is the most critical investment of Phase 1. Brands that build 200+ micro-influencers generate \$100K+ monthly revenue consistently. Our Phase 1 goal is 30. [15]

- Identify 30 TikTok creators in the Philippines with 10,000–200,000 followers who actively create #pabango, #perfumeph, or beauty content. Engagement rate (7%+) matters more than follower count. [15]
- Budget allocation: Send 1 free unit per creator (₱170 COGS x 30 = ₱5,100) + shipping (~₱100 x 30 = ₱3,000). Total seeding cost: ~₱8,100 — the lowest CAC investment available.

- Outreach message: 'Hi [name]! Nasubaybayan namin ang inyong mga content at feel namin perfect ka para ma-review ang aming bagong EDP line. Bibigyan ka namin ng libre — walang script, your honest opinion lang. Interested?'
- Creator brief (after acceptance): Share product name, scent description, and 2–3 content angle suggestions (not a script). Tell them: longevity, packaging, occasion. Let them find their authentic angle.
- Set up a private Viber or Telegram group for all 30 creators — community access is a non-cash incentive that builds loyalty [15]
- Target posting date: all 30 creators post within the first 7 days of store launch (Days 21–28)

10.2 Phase 2 — Launch (Days 21–60)

Step 4: Store Goes Live + Launch Week Content (Days 21–28)

- Post 3 videos on Day 21 (launch day): brand introduction video, first EDP hero video (Oud Mirage — highest visual drama), first 'all 6 EDPs' overview video
- Go LIVE on TikTok Shop on Day 21 at 7 PM — for 60 minutes. Follow the LIVE structure: open with spray, walk through all 6 EDPs, Q&A, pin one product, close with follow CTA
- Simultaneously activate all 30 creator posts during Days 21–28. This creates a content flood in the first week — viewers encounter the brand multiple times from different trusted sources
- Shopee: Launch simultaneously. Pin the voucher to the store banner
- Respond to every comment, DM, and inquiry within 2 hours during launch week — speed of response signals brand seriousness to the algorithm and to buyers

Step 5: Weekly Content Calendar (Days 21–60)

Minimum 5 posts per week across TikTok and Shopee Video. Rotate across the 4 content pillars:

Day	Content Pillar	Format	Example
Monday	Scent Storytelling	15–30s TikTok video	'Oud Mirage — ang amoy ng taong alam kung paano pumasok sa kwarto.' Close-up spritz. Bold audio.
Tuesday	Occasion Mapping	'POV' format TikTok	'POV: Date night mo ngayong gabi. Oud Mirage lang. Kaya mo.' Aspirational lifestyle clip.
Wednesday	Visual / Unboxing	ASMR / no-talk video	Slow open of canister. Bottle reveal. Spray on wrist. Trending audio. Zero words needed.
Thursday	Social Proof	Review repost or UGC share	Repost creator review. Caption: 'Ito yung honest na review mula sa community namin.' Tag the creator.
Friday	LIVE Selling	60–90 min TikTok LIVE	7 PM. Walk through all 6 EDPs. LIVE-only bundle deal: any 2 for ₱1,499 (save ₱99). Push affiliate link in bio.
Saturday	Community / Fun	Trend participation or poll	'Anong scent ka? Oud Mirage or Mojito Metallique?' Poll content drives engagement and comment volume.
Sunday	Gifting content	'Best gift' style video	'Hanap ka ng regalo sa birthday ng bestie mo? Charme Envoûtant — pakinggan mo ang pangalan.' Gift occasion content.

Step 6: Launch Giveaway — First Community Activation (Days 28–35)

Sol de Janeiro's giveaway campaigns generated \$11.4M in earned media. Our version, PH scale:

- Giveaway prize: 1 complete set of all 6 EDPs (₱4,794 value; cost to us: ₱1,020 COGS + shipping)
- Mechanics: Follow TikTok + Shopee account. Like the giveaway post. Tag 2 friends in comments. Share to story for bonus entry.
- Duration: 7 days. This drives follows, comments, and shares in a single campaign — compounding algorithm boost.
- Announce winner live on TikTok (go LIVE for the draw) — turns a giveaway into a 45-minute content event
- Expected reach: 50,000–150,000 impressions minimum from tags, shares, and algorithm boost on a well-packaged giveaway post

Step 7: LIVE Selling Schedule — Consistent, Structured, Compounding (Days 21–60)

- LIVE schedule: Tuesday, Thursday, Friday at 7–9 PM; Saturday at 3–5 PM. Minimum 4 LIVE sessions per week.
- Each LIVE: Brand intro → scent walkthrough (all 6) → Q&A → product pin → conversion push → follow CTA
- LIVE-only deal every session: bundle pricing or extra ₱50 voucher available only during LIVE — creates urgency without devaluing the product
- Clip the best 30-second moment from every LIVE and post it as a separate TikTok the next day — doubles LIVE content value
- Track which EDPs generate the most LIVE questions and purchases — double content output for that SKU

10.3 Phase 3 — Scale (Days 61–90)

Step 8: Double the Creator Network (Days 61–75)

- Identify top 5 converting creators from the original 30 — highest click-to-purchase rate per video
- Recruit 20 more creators using the same seeding model. Budget: ₱170 COGS x 20 units + shipping = ~₱5,400
- Offer top performers a tiered incentive: 15% standard commission + ₱500 bonus at every ₱5,000 in sales generated — gamified incentive that drives creator competition [15]
- Brief second batch of creators on the specific content angles that performed best in Phase 2 — data-driven creator briefs

Step 9: Spark Ads on Top-Performing Organic Videos (Days 61–90)

- Review all TikTok videos from Phase 2. Identify the top 2–3 by watch-through rate and comment volume — not just views
- Boost these videos as Spark Ads — minimum ₱500/day per video, targeting Philippines, ages 20–35, interest: beauty, fragrance, fashion
- Spark Ads amplify proven organic content — do not create new ads. Tested organic videos converted; amplify what works
- Budget: ₱20,000–₱30,000 for Spark Ads in Days 61–90. Monitor cost-per-sale and pause any ad below 3x ROAS

Step 10: Ber-Month Gifting Campaign + Mega Sale Activation (Days 75–90)

- By Day 75, if on track, Ber-month season begins (September). Shift 60% of content to gifting positioning
- Create 'Noche Buena EDP Gift Set' bundle: any 2 EDPs at ₱1,499 (save ₱99) — gift set needs a name, packaging photo, and holiday-themed content

- Enroll all 6 SKUs in Shopee 9.9 and TikTok Shop campaign for September — free enrollment, massive platform-driven traffic
- Brief all 50 creators (original 30 + new 20) to produce Christmas/gifting content during Days 75–90
- Run ShopeeLive simultaneously with TikTok LIVE on campaign days to maximize reach across both platforms

10.3 Addressing the Client's Biggest Fear

The client's stated fear: 'Too many perfume brands in the market. No sale.'

The risk is not too much competition. The risk is looking like the competition.

Every competing brand on TikTok Shop PH looks approximately the same: inspired scent, oil concentration claim, affiliate link, ₱299–₱799 price. The buyer's feed is saturated with interchangeable EDP content.

Our protection is differentiation, not novelty. A bold visual identity that stops the scroll. A brand voice that sounds like a person, not a seller. Six scents with original stories, not designer references. This is how a new brand earns attention in a crowded market — not by being louder, but by being distinctly different.
